

Jiffy Model 5000

Big in versatility, the Jiffy Model 5000 handles all athletic field and pavement striping jobs equally well. Others have imitated our design, but none have equaled the craftsmanship and quality throughout, that Jiffy offers.

Power when you need it: 3 1/2 HP Briggs and Stratton engine powers a trouble-free diaphragm compressor, which produces 3.2 CFM @ 40 PSI.

Sturdily built: Welded steel frame rolls smoothly on 10 x 4-inch pneumatic wheels. Brass spray system eliminates rusting.

Safe and easy to use: Large 7-gallon stainless steel tanks, fewer refills and easy clean up. Wide-opening tank has self-sealing pump unit which can be used for emergency pressurizing. Line widths fully adjustable to 6-inches. Two safety relief valves assure you of a safe piece of equipment.

Convenience: Exclusive, easy-to-clean filter system eliminates time-consuming clogging. For really big jobs, you can equip your machine with the huge 12-gallon stainless steel tank. Shipped assembled with operating and maintenance manuals.
