SECTION 4: FIRST AID MEASURES

4.1. Description of first aid measures

General	<i>No hazards which require special first aid measures.</i>
Inhalation	<i>If overexposed to mist or dust above published exposure limits, move to fresh air. If symptoms persist, call a physician.</i>
Skin Contact	<i>Wash off immediately with soap and plenty of water removing all contaminated clothing necessary.</i>
Eye Contact	<i>Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.</i>
Ingestion	<i>Rinse mouth with water and afterwards drink plenty of water. Do not induce vomiting. Call a physician immediately. Never give anything by mouth to an unconscious person.</i>

Provide general and/or local exhaust ventilation to maintain airborne levels below the exposure limits in Section 8. Refer to the current edition of 'Industrial Ventilation: A Manual of Recommended Practice' published by the American Conference of Government Industrial Hygienists for information on the design, installation, use, and maintenance of exhaust systems.

8.3. Personal protective equipment

Protective Measures Avoid contact with skin, eyes and clothing. Remove and wash contaminated clothing before re-use. Wash thoroughly after handling.

Hygiene Measures Take off all contaminated clothing immediately. Follow the usual good standards of occupational hygiene. Clean skin thoroughly after work; apply skin cream.

Respiratory Protection In case of insufficient ventilation wear NIOSH approved respiratory equipment. If vapor exceeds TLV or PEL, use NIOSH approved air-purifying respirators equipped with organic vapor cartridges. Air-purifying respirators should be equipped with an ammonia methylamine cartridge and dust/mist filter.

Hand Protection Wear waterproof protective gloves and impervious clothing.

Eye Protection *Use safety glasses with side shields, (ANSI Z87.1 or approved equivalent).*
